Peterborough
CREATIVE ECONOMY,
COTTAGE LIVING.
air

Tires on the tarmac, sunbeam on the wing.
These are the sights and sounds of people
coming to Peterborough. Individuals and
businesses are touching down.
Clear the runway ...here they come again.
Peterborough
CREATIVE ECONOMY,
COTTAGE LIVING.

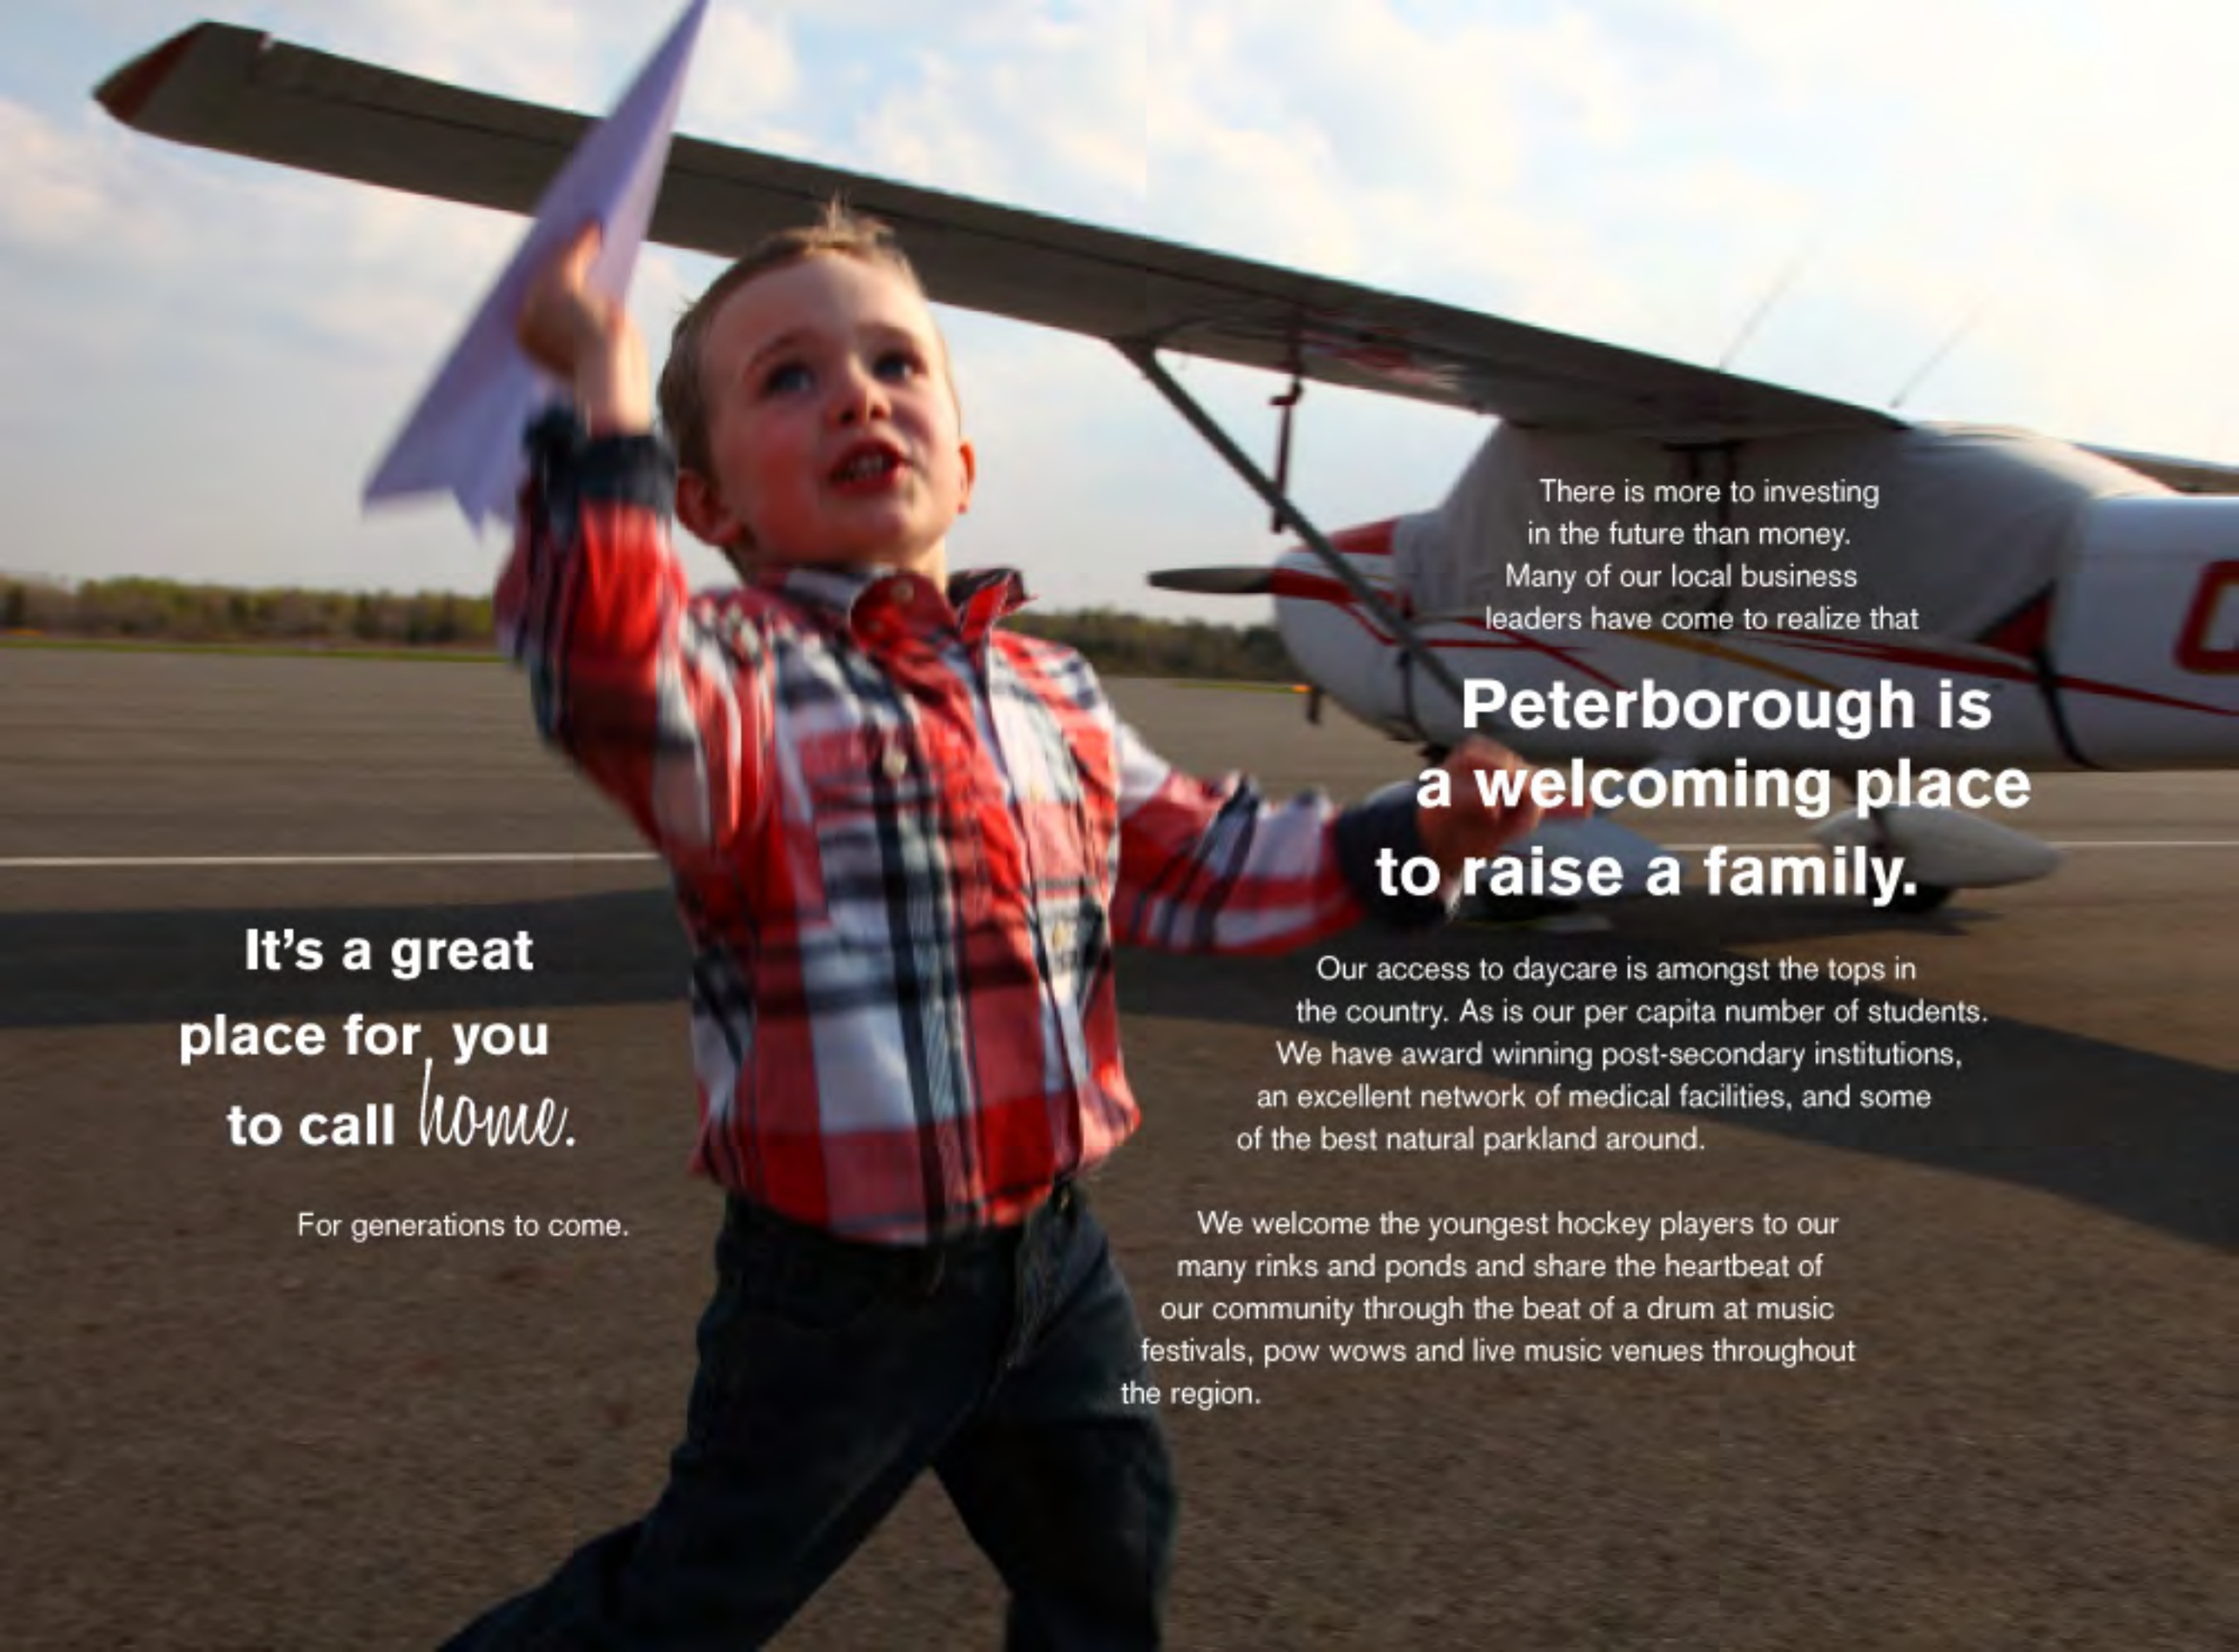
a sky so blue
that you can reach out and touch it.
Air so pure
that it takes your breath away.
Finding a place to
go out and play
is simply a breeze.



There is more to investing in the future than money. Many of our local business leaders have come to realize that

Peterborough is a welcoming place to raise a family.

Our access to daycare is amongst the tops in the country. As is our per capita number of students. We have award winning post-secondary institutions, an excellent network of medical facilities, and some of the best natural parkland around.

We welcome the youngest hockey players to our many rinks and ponds and share the heartbeat of our community through the beat of a drum at music festivals, pow wows and live music venues throughout the region.

It's a great place for you to call *home*.

For generations to come.

Peterborough is one of the most creative cities in Canada.

From engineers to academics… From teachers to artists to writers to creative people with backgrounds too diverse to count…
Ideas and voices come to the surface. Buoyed by a shared culture of inspiring, they float on the Peterborough air.

And take flight.

Exploring our newly **expanded aviation cluster**, you'll find innovative juxtapositions…

Such as Canadian craftsmanship meeting **all-world sophistication** in a Bombadier jet makeover. More and more businesses and companies are making Peterborough a destination for aviation services. And more and more pilots and owners are finding the advantage of servicing their planes here.

At the **Peterborough Airport**, you'll be in good company.

There's a **sense of pride** in everything we do. From the biggest concept to the tiniest detail, the feeling of accomplishment remains. **Together, we're BUILDING success.** And we want to share that success with you.

With 60% of the global economy within non-stop range of Peterborough
the sky is the limit.

The future is built on dreams and imagination.

And the daring to make these fantasies a reality. The success of the Peterborough aviation sector lies with people and businesses that have dared to

act on their dreams.

Seneca College has chosen the Peterborough Airport as a preferred location for Canada's only flight training centre. Trent University and Fleming College produce some of the brightest graduates that Ontario has to offer. Twenty successful businesses have opened their doors at the airport property alone.

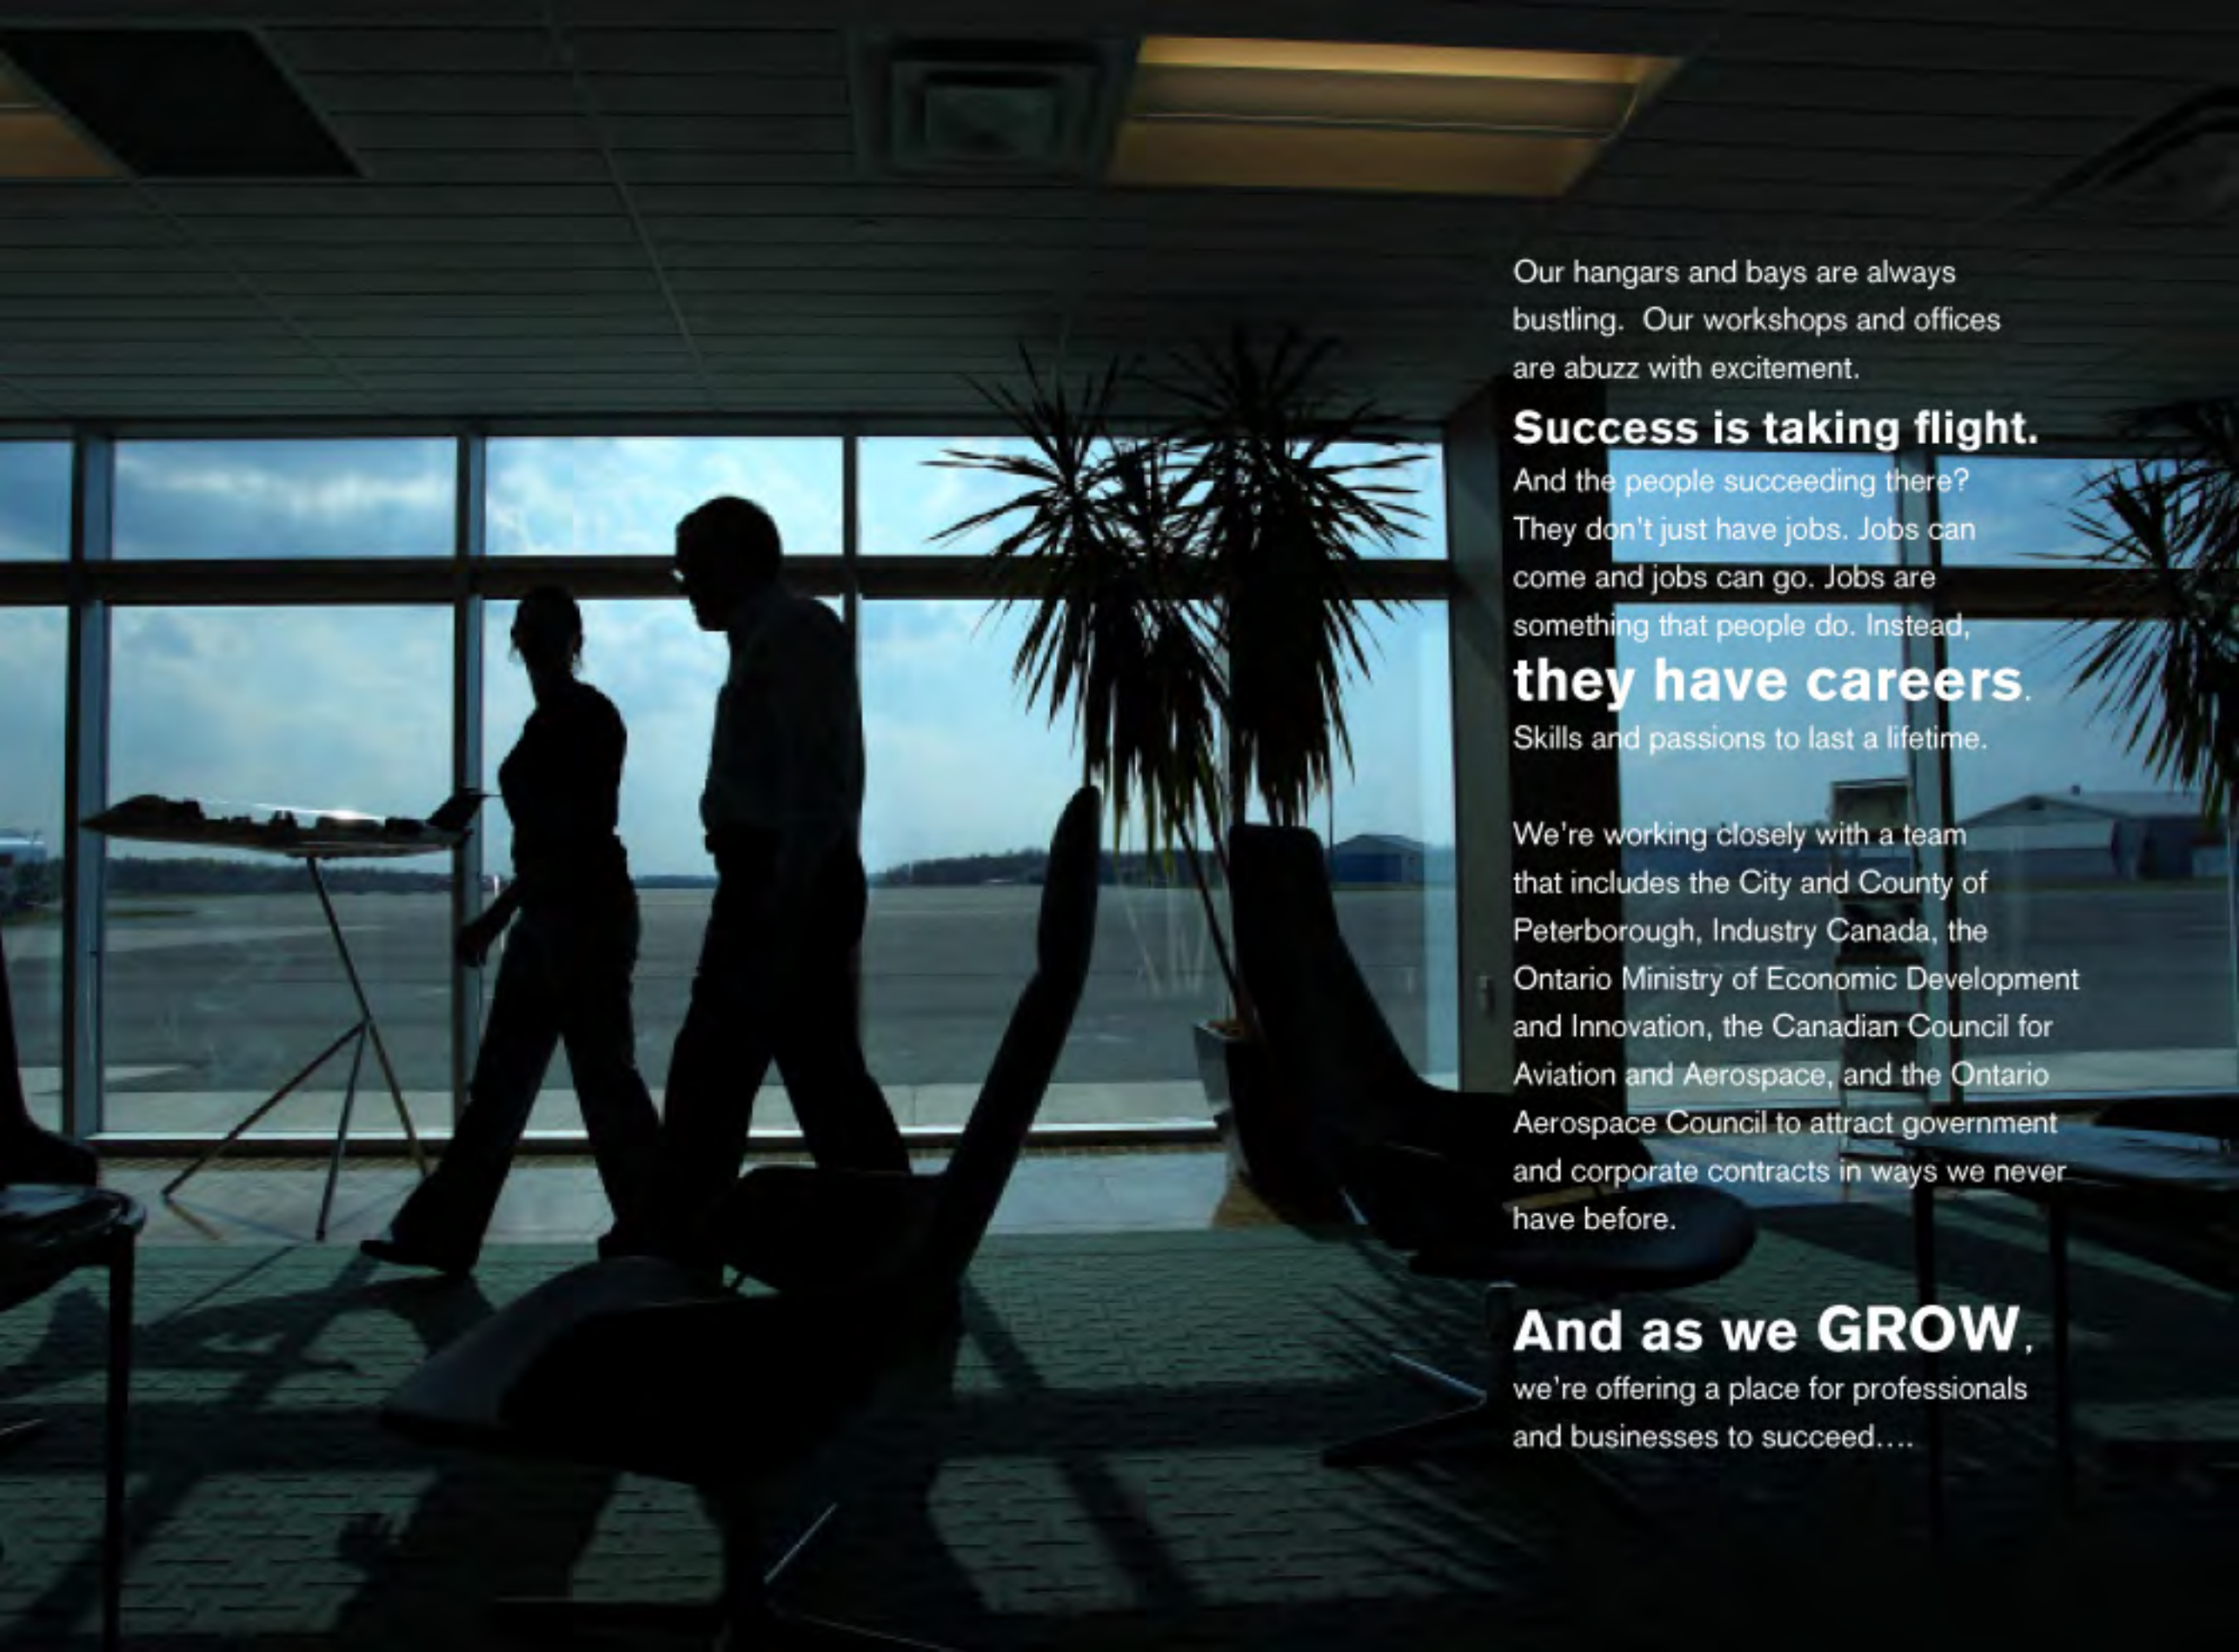
In Peterborough, the future of aviation is *now*.

Catch the wind!

The Peterborough Airport is host to several high profile aircraft design, engineering, and modification companies.

It can also play host to yours.

From luxury jets to medivac planes, we're helping produce some of the **world's finest and most dependable aircraft**. We've made it on the map by helping get others around the globe.



Our hangars and bays are always bustling. Our workshops and offices are abuzz with excitement.

Success is taking flight.

And the people succeeding there? They don't just have jobs. Jobs can come and jobs can go. Jobs are something that people do. Instead,

they have careers.

Skills and passions to last a lifetime.

We're working closely with a team that includes the City and County of Peterborough, Industry Canada, the Ontario Ministry of Economic Development and Innovation, the Canadian Council for Aviation and Aerospace, and the Ontario Aerospace Council to attract government and corporate contracts in ways we never have before.

And as we GROW,

we're offering a place for professionals and businesses to succeed….

As you enter the Peterborough Airport, you get caught up in a sense of excitement. After all, airports are places of **endless possibility**. They are the jumping off points for new adventures and the meeting place for visitors from around the world. They are exciting destinations and they are safe arrivals home. With **between 25 000 and 30 000 takeoffs and landings per year**, the Peterborough Airport is rich with possibility.

After all, **our new 7,000-foot runway** is designed to support narrow body aircraft such as the Boeing 737 and Airbus 320 series. We're only a short hop from major international airports in Toronto and Montreal. And our full-service aviation facilities will meet the needs of almost any aircraft. With a keen eye for detail and **people-first philosophy**, we can make any aviation service feel like a luxury.

The Peterborough Airport
There's a new sense of direction at the Peterborough airport. With huge advances to our aviation sector – and a $30 million upgrade to the airport – we're changing the way that people think about flying.
Where we once celebrated bringing the world to Peterborough, we now also pride ourselves on bringing Peterborough to the world.
Buckle your seatbelt. We're about to take off.

Carried on the breeze it flows
through our diverse local economy,
is buoyed by our proud, dedicated,
and highly skilled labour force,
and touches down on our richly
integrated and upgraded airport.

There's something in the *Air* in Peterborough...

It is a sense of pride… of a unique
Kawartha quality of life. It is recognition
of the many, many factors that combine
to make this community a leading centre
for innovation and investment in the
aviation/aerospace sector.

For investors and business leaders,
it is the promise of endless possibilities.
They've caught the winds of change.

And are sharing that **promise.**

What is it about **Air** that inspires **innovation** and draws out **creativity?**

In Peterborough, Air is driving our economy with

- A newly upgraded and expanded airport
- A growing aerospace/aviation cluster
- Fresh air, quality living
